WHOLESALE TRADE-LIST

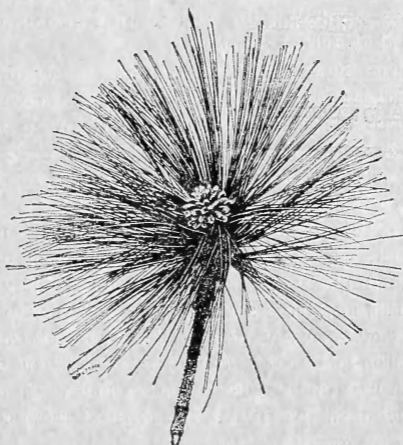

OF

Pinehurst Nurseries

(11)

OTTO KATZENSTEIN
MANAGER

PINEHURST, Moore County, NORTH CAROLINA

NORTH CAROLINA

Woody and Herbaceous Plants

and Other Ornamentals

NOTE REDUCED PRICES ON OUR COLLECTED STOCK
AND SEE THIRD COVER PAGE FOR COLLECTED
STOCK IN LARGEST QUANTITIES.

WE FUMIGATE ALL STOCK WITH HYDROCYANIC ACID BEFORE
PACKING.

**North Carolina
Commission for Controlling Crop Pests,**

RALEIGH.

CERTIFICATE OF EXAMINATION OF NURSERY STOCK.

To Whom it may Concern:

This is to certify that on October 15th, 1900, the nursery grounds of PINEHURST NURSERIES, PINEHURST, N. C., were inspected; that the growing stock was apparently free from any pests designated as dangerous by this Commission, and was otherwise healthy.

This Certificate expires September 1st, 1901, and applies only to stock grown in the aforesaid nurseries.

FRANKLIN SHERMAN, JR.,
Botanist and Entomologist.

Approved for the Commission:

S. L. PATTERSON, *Chairman.*

No. 42.

Woody Plants.

Col., collected plants. S, seedlings. C, cuttings. All others are nursery grown and transplanted.

Pears: —(on Quince) Angouleme, Anjou, Bartlett, Clapp's Favorite, Easter Beurre, Hardy Giffard, Howell, Josephine of Malines, Lawrence, Louise Bonne of Jersey, Superfin.		

These peculiarly trained dwarf fruit trees, of which we have still a number to offer, are especially adapted to private places, where they surely will be a permanent source of interest, pleasure and profit. Year in year out they will repay diligent care by sure crops of fruits of extra large size and of a very superior quality. The main trunk of our about three-year-old plants is bent 18 inches above ground in "T" shape or with a few with one arm. Our trees are covered with fruit branches and are ready to bear next year. We are ready to give any desired cultural directions.

Herbaceous Plants, Roots and Bulbs.

PINEHURST VIOLET-----clumps	1.00	3.00	20.00

There is no better all-around useful violet. The flowers are very large, deep-purple and sweetly fragrant, on remarkably long stems. Very free bloomer; easily forced. The foliage is dark-green and very large. Try it for next season. We send single plants at 10 cents postpaid.

Selection of a Few Desirable Books on
GARDENING

WHICH WE SHALL BE PLEASED TO SUPPLY AT PUBLISHER'S PRICES, CARRIAGE PREPAID.

The Cyclopædia of American Horticulture.

By L. H. Bailey, of Cornell University, assisted by Wilhelm Miller and many expert cultivators and botanists.

4 VOLUMES, WITH OVER 2000 ORIGINAL ENGRAVINGS.
VOLUMES 1 AND 2 READY.
PRICE PER VOLUME, CLOTH, \$5.00.

The book is sold only by subscription and orders will be accepted for the full set only.

OTHER WORKS BY PROF. BAILEY:

The Horticulturist's Rule-Book.

4TH EDITION, 312 PAGES, 75 CENTS.

A compendium of useful information for fruit-growers, truck-gardeners, florists and others.

The Nursery-Book.

3RD EDITION, 365 PAGES, \$1.00.

A complete guide to the multiplication of plants.

Garden-Making.

3RD EDITION, 417 PAGES, \$1.00.

A compendium of knowledge for the owner of garden grounds of any size. It instructs, inspires and educates the reader.

The Amateur's Practical Garden-Book.

250 PAGES, \$1.00.

A miniature cyclopædia in alphabetical arrangement. Just the book the busy man or woman wants to be successful in the care of their plants.

We take subscriptions for the following magazines:

AMERICAN GARDENING.—A weekly illustrated journal of horticulture and gardeners' chronicle. A record of current events in horticulture. Yearly subscription \$1.50, or \$2.00 for foreign countries.

MEEHAN'S MONTHLY.—Issued monthly, covers the whole field of horticulture in interesting and concise articles written by experts. Each issue contains a magnificent colored plate by Prang. Price \$2.00 per year, or \$2.50 for foreign countries.

All orders for subscriptions or books must be accompanied by remittance.

Prices for Large Quantities of Collected Shrubbery.

The sizes given below will be found especially adapted for extensive planting and for lining out in nursery rows. Other sizes can be furnished as well in large lots, and we solicit correspondence.

ABIES ARIZONICA, Merr. var. argentea, CORK FIR.

We are much gratified that we are allowed to bring out such a sterling novelty as this spruce, which surely will soon be acknowledged one of the choicest, if not the very finest of all conifers known to cultivation at present.

**THE BARK OF TRUNK AND BRANCHES
OF THESE TREES IS OF A PURE WHITE
OR SOMETIMES GRAYISH COLOR,**

while the silvery foliage adds to the appearance in a striking way which cannot be surpassed. Mr. Purpus reported that the trees occur in fine development at an altitude of 11,000 ft., whence he had to leave rather hurriedly with his expedition in October on account of very severe snow-storms. This appears to be positive proof that this tree will show itself quite hardy under cultivation everywhere.

The full beauty of the creamy bark is best shown in trees of four feet height and upwards, but even the smallest seedling has the magnificent silvery foliage, which makes it an object of admiration.

Although we control the entire supply of these trees for the United States, we shall have but a limited number of transplanted specimens to offer in spring, 1901, ranging in size from nine to eighteen inches. For these we will book orders now at \$3.00 per tree, or \$27.50 per ten, and will ship from April until our available supply will be exhausted.

This CORK SPRUCE is evidently the tree of the future and to plant a number now will be found a good and safe investment.

We will gladly mail samples of the bark.
